

Overall score:

Names:

- 1. Summary of previous scientific research on these herps.** Your project could involve a single species (like the rubber boa), a community of species (e.g. all reptiles and amphibians in central Idaho), or a clade of related species (e.g. Ranidae)

(/20 pts)

- 2. A question that is unsolved** that you'd like to answer.

(/20 pts)

- 3. An outline of the research** you're planning to do. Be specific, and include detailed descriptions of your methods, a specific timeline, and hypotheses that you will be testing. This research can take place anywhere in the world.

(/20 pts)

- 4. Your proposed budget.** Should be detailed.

(/20 pts)

- 5. Presentation style**

(/20 points)
